Blue line shows maximum print area for copy and logo's. At least 3mm of bleed is required for full reversal artworks - represented here by the Green dotted line.

Please note: These camera blockers are printed in CMYK.

If pantone colour matching is important we require you to provide specific PMS colours, and we will produce closest CMYK colour match possible (perfect colour match not guaranteed). We are unable to edit colours in rasterized images. **Camera blockers are applied by hand therefore exact positioning cannot be guaranteed over the entire order.**

Camera blockers are sublimation printed and backing cards are digitally printed. Due to the different print processes colour variations will occur between items and is considered acceptable. If important or if specific colours are required please discuss alternate options with your account manager.
